Upright Vacuums & Rider Vacuum

Vacuums for Every Cleaning Need

Whether your cleaning tasks call for a vacuum that's lightweight and easy to maneuver, a heavy-duty, large-area machine, or something in between — Advance has the answer. And your Advance representative has the expertise to help you choose the best models for your cleaning program, including vacuums that meet LEED-EB guidelines and the GS-42 green cleaning standards.

Advance's line of single-motor upright vacuums delivers effective and cost-efficient cleaning. You can look for the Carpet and Rug Institute (CRI) Seal of Approval Certification on Advance uprights. The CRI certification means the machine has passed independent tests verifying its ability to remove soil, contain dust and retain quality carpet appearance. Spectrum™ single motor and dual motor models are CRI certified and are designed to be easy-to-maneuver with better dirt pickup and better filtration at a better value.

ReliaVac® 12 & 12DC

Single-motor
Upright Carpet Vacuums

- 12 inch path is cleaned with a durable steel brush roller
- ReliaVac® 12 top fill bag enhances vacuum power
- ReliaVac® 12 DC model has an easy to empty dirt cup
- Removable clear fan cover allows for identifying and removing clogs

Spectrum™ 12P & 15P

Single-motor
Upright Carpet Vacuums

- 11.5 or 14.5 inch cleaning path
- Powerful 1,000 Watt, 2-stage motor
- Adjustable brush height
- Certified H.E.P.A. filtration standard
- Tools-free removable brush
- Heavy duty cord restraint
- Convenient front handle for lifting
- Accessories are conveniently tucked behind wand
- Sealed, maintenance-free cog belt

ReliaVac® 12HP & 16HP

Single-motor
Upright Carpet Vacuums

- 12 or 16 inch cleaning path
- High performance cleaning power with the aluminum brush roller
- Replaceable bristle strips and beater bars for versatile cleaning
- Removable clear fan cover allows for identifying and removing clogs
- Headlight illuminates work area

Spectrum™ 15D & 18D

Dual-motor
Upright Carpet Vacuums

- 14.5 or 17.5 inch cleaning path
- Separate vacuum and brush motors for a powerful performance
- 1,350 Watts of power with combination of independent brush and vacuum motors
- Adjustable brush height with low brush height indicator light
- Certified H.E.P.A. filtration standard
- Tools-free removable brush
- Heavy duty cord restraint
- Convenient front handle for lifting
- Accessories are conveniently tucked behind wand
- Sealed, maintenance-free cog belt

All based on 1 hour of cleaning time.

Dual-Motor Vacuums for Powerful, Efficient Pick-up

When your facility calls for daily use of a heavy-duty, long-life vacuum, Advance has the dual-motor upright for you. Our Spectrum™ vacuum cleaners deliver more productivity, better filtration, and better value than other upright vacuums on the market. Indoor air quality is greatly improved for all occupants with a combination of 3-stage filtration, including H.E.P.A., and low sound level. Built for one-pass cleaning, the CarpeTrievery™ 28 vacuum is perfect for cleaning large areas. The chevron bristle pattern on this machine draws dirt to the vacuum intake for efficient cleaning. Operator fatigue is minimized with the CarpeTrievery vacuum since the need for back and forth movement is eliminated.

The Advance VacRide™ has been engineered for maximum productivity on large carpeted areas. It puts you behind the wheel of the first rider-vacuum with true vacuum performance. The VacRide's dual motors and H.E.P.A. filters provide better dirt pickup and filtration than carpet sweepers and other rider vacuums. In addition, you'll save time (and your back!) while cleaning large carpeted areas compared to traditional wide area vacuums.

CarpeTrievery™ 28

Large Area
Upright Carpet Vacuum

- 28 inch cleaning path allows for increased productivity
- Dual vacuum motors provide generous pickup power
- Large 1 bushel capacity cloth bag is standard
- Carpet brush propels the machine, minimizing operator fatigue

Advance VacRide™

Rider Vacuum

- Side broom creates 34 inch (86 cm) cleaning path
- 28 inch (71 cm) dual counter rotating brushes
- Dual vacuum motors with Quiet Mode provide superior suction and dirt pickup
- Includes detail wand
- Dual H.E.P.A. filters protect indoor air quality (IAQ)
- 7.8 gallon capacity dual layer disposal bag
- Optional 20 foot (6 m) hose with S-Wand, tools and caddy

Canister & Specialty Vacuums

Canister Vacuums for Maximum Cleaning Flexibility

Need to clean floors, plus walls, ceilings and other off-floor surfaces? Need to clean in occupied areas or during business hours? Then you need the flexible cleaning performance of canister vacuums from Advance. Canister vacs feature quiet operation and multi-level filtration systems for improved indoor air quality (IAQ). With their straight-forward design and few moving parts, canister vacuums minimize clogging and maximize reliability for the lowest total cost of ownership. The quiet, high-performance CaniStar® vacuum features a superior filtration system – including a 2-ply dust bag, foam filter, multilayer paper filter and a motor protection filter. The versatile QuickStar™ vacuums clean carpet and hard floors as well as other horizontal and vertical surfaces. Their low center of gravity and three-point stance make them easy for any operator to maneuver. When cleaning a stairwell, elevator, entrance, or any other area where electricity is inaccessible, the QuickStar™ B battery vacuum provides best-in-class 60 minutes of continuous cleaning time. With a very low sound level of only 60 dB A, the QuickStar B can easily be used for daytime cleaning without disturbing occupants.

QuickStar™

Canister Vacuum

- 1,100 Watt, 2 stage motor
- 62 dB A sound level
- Filter basket standard for bagless operation, six dust bags included, cloth shake out bag optional
- Three levels of filtration standard
- 33 foot cord, rotating dust brush and crevice tool stored onboard

QuickStar™ B

Canister Vacuum

- 400 Watt, 2 stage motor
- Quiet 60 dB A sound level
- Powered by two lithium ion batteries
- Two batteries provide one full hour run time and require two hours to recharge
- Filter basket standard for bagless operation, six dust bags included, cloth shake out bag optional
- Three levels of filtration standard
- Rotating dust brush and crevice tool stored onboard

CaniStar®

Canister Vacuum

- Super-quiet sound level for daytime cleaning – 53 dB A
- 1,100 Watt motor for superior suction and cleaning performance
- Built with serviceability in mind, to provide the lowest total cost of ownership
- Full complement of tools for commercial cleaning tasks
- Available H.E.P.A. filtration

Backpack Vacuums for Reduced Operator Fatigue

Cleaning confined and cluttered office space, stairways and other obstructed areas has never been easier – when you choose a backpack vacuum from Advance. Never before has there been a backpack as comfortable and effective as the Adgility™ XP. The weight of the vacuum is distributed more evenly on the operator with the premium cushioned harness design on the Adgility XP. The vacuum moves with the operator when bending or twisting. When your application has limited access to electrical outlets, where safety restrictions require a cordless option or where mobility is important, the Adgility™ XPB battery backpack vacuum will meet those cordless vacuum needs. It is powered by a Lithium Ion battery, the latest in cordless technology, offering 30 minutes of cleaning time. The Adgility™ hip-style vacuum combines light weight with an ergonomic shape to create a new standard in comfort and performance. The Adgility™ XP has received CRI Seal of Approval for vacuums certification.

Adgility™

Backpack Vacuum

- Lightweight at only 6.4 pounds
- Powerful 1,000 Watt motor generating 100 CFM and 96 inches of waterlift
- Three levels of filtration standard, H.E.P.A. filter optional
- 50 foot (15 m) safety yellow power cord for long cleaning reach
- Includes 12 inch combination floor tool, dust brush, crevice tool and six dust bags

Adgility™ 6XP & 10XP

Backpack Vacuums

- Comfortable, lightweight design
- Powerful 1,300 Watt motor
- Premium harnessing system
- Quiet 62 dB A sound level
- Cord restraint clips onto the safety cord and holds it in place
- Exhaust port directs warm air up and away from the operator
- SaniSeal™ self-sealing adhesive rim on bag seals to contain all dust and dirt
- Four levels of filtration, H.E.P.A. filter optional

Adgility™ XPB

Backpack Vacuum

- Comfortable, lightweight design
- 400 Watt motor
- Premium harnessing system
- Quiet 58 dB A sound level
- Powered by one lithium ion battery
- Battery provides 30 minutes of run time
- Package includes two batteries and a charger
- Exhaust port directs warm air up and away from the operator
- SaniSeal™ self-sealing adhesive rim on bag seals to contain all dust and dirt
- Four levels of filtration

Advance Extractors are Industry Leading

From handy spot cleaners to innovative riding machines, Advance offers a complete line of carpet extraction equipment.

The Advance AquaSpot® carpet spot extractor works as a convenient, easy-to-use extractor for quick clean-up of spills or touch-ups on carpet or upholstery. The Advance AquaClean® line is one of the most popular extractors on the market. A self contained extractor, the AquaClean® provides superior cleaning results and leaves carpets nearly dry and ready to use. The Advance AquaPro® with AquaWand™ is available in three models, all with CRI Seal of Approval, to meet your various portable extractor needs. The AquaPLUS™ and AquaPLUS™ AXP™ battery extractors features *LIFT*™ Technology for low-moisture cleaning and fast dry times. Carpets are dry within 30 minutes when using AquaPLUS™ extractors with *LIFT*. The industry-leading Advance AquaRide® rider extractor also features *LIFT* Technology for low-moisture cleaning. The AquaRide® is also available with AXP™ Onboard Detergent Dispensing System.

With the complete line of extractors from Advance, carpets are cleaned better, faster, and easier, resulting in increased productivity.

AquaClean® 16ST/18ST/16XP/18FLX

Self-Contained Extractors

- Aerodynamically engineered vacuum shoe for constant acceleration and superb water recovery
- 1.5 three stage vacuum motor, 117 inches of waterlift, 50 foot (15 m) cord
- Brush and vacuum shoe removed without tools
- XP and FLX models include onboard spotting tool

AquaClean® 12ST

Self-Contained Extractor

- Single nozzle spray system allows for even coverage over the cleaning path
- 5 gallon solution tank
- 12 inch cleaning path
- Single spray jet technology allows for even coverage over cleaning path

AquaPLUS™ & AquaPLUS™ AXP™

Carpet Extractors

- AXP™ Onboard Detergent Dispensing System (AquaPLUS™ AXP™)
- *LIFT*™ Technology for low-moisture cleaning
- One-Touch™ operation
- Deep Treat™ cleaning for pre-spray and post cleaning treatment

Advance AquaRide® AXP™ Increases Cleaning Productivity

Increase productivity by 400% compared to conventional walk-behind extractors with the Advance AquaRide®, the industry's first rider sweeper/extractor. With dual cylindrical technology for sweeping and extraction efficiency, Advance AquaRide® sweeps and extracts in one pass.

A wide 28 inch cleaning path and a 63 inch turning radius delivers superior cleaning results. The Advance AquaRide® provides more than two hours of cleaning time per tank, combined with easy maintenance and low operator fatigue that add to the bottom line. Floors are left almost dry, reducing dry time significantly and allowing you to extract whenever your floors need it. The result is a reduced cost of cleaning.

AquaRide is available with AXP™ Onboard Detergent Dispensing System.

AquaRide® AXP™ model shown

AquaPro® XP/H/C

Portable Extractor

- AquaWand™ cleaning tool standard on all models
- AquaWand™ design provides increased water pick-up with less time and effort
- AquaPro XP and H feature 212° solution at the wand tip
- AquaPro XP provides 300 psi for restoration or 75 psi for light duty cleaning
- AquaPro H and C provide 150 psi
- All models incorporate onboard storage of AquaWand™, detergent bottles, and other cleaning tools

AquaPro® XP - Gold
AquaPro® H - Silver
AquaPro® C - Bronze

AquaSpot®

Carpet Spot Extractor

- A clear recovery tank with 2 dumping ports allows for ease of cleaning
- Exhaust air is filtered for maintaining indoor air quality
- Optional cart is designed with a tray and holds cleaning accessories

HydroDry™

Dryer

- Durable rotocast polyethylene stackable blower with a 0.5 hp motor
- 3 speed settings to select the right amount of air movement
- Blower can be angled in three different positions to direct air as needed
- 25 foot power cord to reach those distant outlets

LIFT™ low-moisture technology utilizes a patented indirect spray feature that provides superior cleaning while increasing per tank productivity and reducing water consumption. Operators will experience faster dry times and true cleaning with **LIFT™** technology.

Advance Sweepers: the Fast Track to a Clean Sweep

From walk-behind to rider models, Advance sweepers provide superior cleaning results in a wide variety of applications and floor surfaces. The fast and efficient Terra 26M is much more productive and effective, than standard push broom sweeping. Rated at only 59 dB A, the Advance Terra® 28B is one of the quietest battery operated sweepers in the industry. With A.S.A.P. (All Surface All Purpose) sweeping technology, the sweeping efficiency is maximized on the Terra® 28B when the operator transitions between hard and soft floor types. The Terra® 3700B rider sweeper offers a 37 inch sweep path for larger carpeted areas, while the Terra® 4300B is built for industrial strength sweeping – inside and out.

Advance sweepers feature tools-free maintenance and easy broom adjustments with operator-friendly controls. Recent product innovations include onboard battery chargers, maintenance-free gel batteries, and enhanced filtration.

Terra® 26M

Walk-Behind Push Sweeper

- 26 inch sweep path
- Manually operated
- Tools-free adjustable side brooms
- Tools-free adjustable rear main broom
- Dual caster wheels operate in the “clean path” behind side brooms
- Variable handle height
- Handle folds down

Terra® 132B

Walk-Behind Sweeper

- 32 inch sweep path
- Battery operated
- Standard onboard battery charger
- Tools-free removable brushes and hopper
- Rugged construction for carpet or hard floor applications

Terra® 28B

Walk-Behind Sweeper

- 28 inch sweep path
- Maintenance free gel battery standard
- Half as loud as most vacuums at 59 dB A
- Standard onboard battery charger
- Tools-free removable brooms and hopper
- Rugged construction for carpet or hard floor applications

Terra® 3700B

Rider Sweeper

- 37 inch sweep path
- Battery operated
- Standard onboard battery charger
- Tools-free removable brushes and hopper
- Rugged construction for carpet or hard floor applications

PUMP-UP YOUR PRODUCTIVITY with Advance Cleaning Equipment

		
Advance Terra® 4300B	Advance Terra® 28B	36 Inch Push Broom

- Simple, ergonomic and intuitive operator interface
- 20% gradeability while sweeping
- Rugged construction for carpet or hard floor applications

Advance Floor Machines Feature Easy Maintenance

Clean floors, both hard and soft, with a floor machine from Advance. The standard 175 rpm machines vary in size from 13-20 inches with motors ranging from 1 horsepower to 1.75 horsepower. All machines come standard with a safety switch and pad driver. A versatile two-speed floor machine operates at 175 and 275 rpm. To customize the cleaning capabilities of each machine, Advance provides a full line of accessories, including solution tanks, and a complete selection of pads and brushes. Advance floor machines operate efficiently, reliably and productively. Advance floor machines are made to the high standard of quality that you have come to expect from Advance.

Pacesetter™ 20TS

Two-Speed Floor Machine

- Versatile 20 inch two-speed floor machine
- 1.5 hp DC motor
- 66 frame motors run at 180 and 320 rpm
- Ergonomic molded handles for safety and comfort
- Pad driver included

Pacesetter™ 13/17/20/17HD/20HD/20SD

Floor Machines

- 13, 17 and 20 have 1.0 hp, 66 frame motors at 175 rpm
- 17HD and 20HD have 1.5 hp, 66 frame motors at 175 rpm
- 20SD is 20 inches with 1.75 hp, 66 frame motor at 175 rpm
- Ergonomic molded handles for safety and comfort
- Pad driver included

Advance Burnishers Add Luster to Floors

Advance offers a complete line of burnishers available in cord electric, propane, and battery power sources. Two cord electric models offer exclusive, patented technology to eliminate any operational variances for almost foolproof burnishing. The dust collection model provides superior dust collection enabling one pass burnishing. Four propane models are available in two different sizes to match your application. Five battery burnishers are available: four walk-behind models and a rider. The walk-behind models are built to last, offering dual dust collection bags and adjustable pad pressure. Advance introduced the battery rider burnisher to the industry to further increase burnishing productivity. Rely on Advance burnishers for all of your burnishing needs.

Advolution™ 20

Cord Electric Burnisher

- 20 inch burnishing path, 1,500 r.p.m.
- Flex Floor Technology for constant even shine even on unlevel floors
- Patented gas spring provides optimal head pressure for maximum gloss performance
- EZ Store™ folding handle
- Rotating cord hook
- 75 foot safety yellow cord with hospital grade plug

Advolution™ 20XP

Cord Electric Burnisher

- 20 inch burnishing path, 2,000 r.p.m. with dust control
- Flex Floor Technology for constant even shine even on unlevel floors
- Patented gas spring provides optimal head pressure for maximum gloss performance
- EZ Store™ folding handle
- Rotating cord hook
- 75 foot safety yellow cord with hospital grade plug
- Dual Port Dust Bag

PBU Series 21 & 27

Propane Burnishers

- 20 and 27 inch burnishing paths available in a variety of models with either 1,500 or 2,100 r.p.m.
- Powerful 13 or 17 hp Twin-V engines
- Fastest high gloss burnishing available
- Rugged one piece cast deck & frame - powder coat finish resists damage
- Adjustable handle
- Available with or without dust control
- Available with Carb Gard™ emissions control
- Available with catalytic mufflers

Advolution™ 2710 Maximizes the Shine in Less Time

The Advolution™ 2710 battery-powered rider burnisher from Advance is designed around a front steering system – accepted industry-wide as being the easiest to control and maneuver. A unique One-Touch™ control pad simplifies operator training and equipment operation.

The Advolution™ 2710 rider burnisher increases operator productivity with its ride-on capability and extended battery run-time. The burnishing pad operates at a speed of 1,600 rpms and utilizes three different pressure settings. On average, battery run-time on this rider burnisher allows the operator to burnish over 30,000 square feet (9,144 meters) per hour. Maximum tested productivity is even higher, with results exceeding 135,000 (41,148 meters) square feet on a single battery charge.

Advolution™ 20B/20BT/24B/24BT

Battery-Powered Burnishers

- Pad assist model (20B/24B) or powered traction model (20BT/24BT) available
- Consistent and even polishing with self-regulating pad pressure
- Best passive dust control in the market, which helps improve indoor air quality
- Safety switch in pad change position
- Optional active dust control is available with the addition of an Adgility hip-style vacuum to the front of the machine

Advolution™ 2710

Battery-Powered Rider Burnisher

- Ultra high productivity, six 6 Volt/395 Ah batteries
- 1,750 rpm, 3.25 hp motor produces an exceptional shine
- One-Touch™ burnishing with three pad pressure settings
- Passive dust control standard; active dust control optional for added filtration

Why walk when you should ride?

Advolution™ 2710

34,375
sq ft

Advolution™ 20XP

10,000
sq ft

- Riding is safer than walking because of better sight lines
- Employees are less fatigued, which means they can clean longer and more areas
- Rider speed is faster than walking — employees can clean more square footage in less time!

The Result? Increased productivity that drives down the cost to clean

Automatic Walk-Behind Scrubbers

The Right Scrubber for a Spotless Facility

Advance leads the industry with the most innovative designs, unique features, and highest productivity in floor scrubbers today. That means more cleaning flexibility, longer machine run-time, easier operation, and maximum operator safety. All of Advance's automatic walk-behind scrubbers leave floors clean and dry in just one pass, increasing safety and productivity. Whether you're moving from mop-and-bucket cleaning to a small scrubber, or you require a high performance machine with the widest scrub path and newest technology available – Advance has the machine for you. Advance scrubbers offer Smart Solutions™ flow rate, onboard battery chargers, easy to use operator controls, and many more features for performance and safety. Most Advance scrubbers operate at a sound level of 65 dB A or less, making them ideal for daytime cleaning. They are also a great addition to any green cleaning program.

Micromatic™ M17B/M17E

Automatic Scrubbers

- Gel batteries with onboard charger, on battery model
- Smart Solutions™ solution control
- 6-gallon solution and recovery tanks

Micromatic™ 13E

Automatic Scrubbers

- Replaces mop and bucket cleaning
- 13 inch scrub path, cord-electric
- Dual 6.5 inch disc brushes operate at 200 rpm
- Front squeegee system picks up solution in all directions
- 1.8 gallon "lift-out" solution tank, and 2.1 gallon recovery tank

Micromatic™ 14E

Automatic Scrubbers

- 14 inch scrub path, cord-electric
- Cylindrical scrub brush operates at 1,000 rpm
- Front and rear squeegee system picks up solution in all directions
- 3 gallon "lift-out" solution and recovery tanks

Adfinity™ 17ST/20ST

Automatic Scrubbers

- 17 and 20 inch disc scrub path
- 10.5 gallon solution and recovery tanks
- Smart Solutions™ Flow Rate
- Onboard Battery Charger
- Variable Pad Pressure
- Tools-free removal of squeegee and squeegee blades

Features that Make Scrubbing a Breeze

Many of our automatic scrubbers feature One-Touch™ operator controls for the easiest operation. They also feature an onboard battery charger for the quickest, most convenient charging option. To save water and detergent, we've designed all of our scrubbers with Smart Solutions™. This water-saving system guides the operator to select the right water and chemical flow rate for their cleaning needs, thereby optimizing water and chemical use. EcoFlex™ System is available on Adfinity™, SC750™, SC800™, Warrior™, Advenger® and Adgressor® models. EcoFlex™ System models have One-Touch™ activation for an on-demand cleaning burst of power. The Advance line of walk-behind scrubbers is also equipped with features that make them easy to maintain. The Micromatic™ 14E features a "lift-out" solution and recovery tank, while the Adfinity™ line features a tip-back tank for full accessibility.

Adfinity™ 20D/X20D/X20C/X24D available with EcoFlex™ System

Automatic Scrubbers

- 20 and 24 inch disc and 20 inch cylindrical scrub paths, with traction drive
- 14.5 gallon solution and recovery tanks
- Smart Solutions™ Flow Rate
- EcoFlex™ Onboard Detergent Dispensing System (X20D, X20C, X24D)
- Onboard Battery Charger
- Variable Pad Pressure
- Interchangeable Scrub Decks
- Tools-free removal of squeegee and squeegee blades

Warrior™ available with EcoFlex™ System

Automatic Scrubbers

- Available in 28 and 32 inch scrub paths
- Tools-free interchangeable scrub decks
- Click-off disc scrub brushes (EcoFlex™ System models)
- 30 gallon solution and recovery tanks
- Tools-free removable nose cone
- Optional EcoFlex™ System reduces environmental impact and detergent costs
- Choice of onboard or free standing charger
- Simple and intuitive controls
- Soft-Touch™ paddle system
- Choice of wet-acid or maintenance-free gel batteries
- Whisper-quiet 71dB A sound level
- Ultra-Flow™ squeegee system
- Easy-access recovery tank

SC750™ & SC800™ available with EcoFlex™ System

Automatic Scrubbers

- Available in 26, 28 or 34 inch disc and 28 inch cylindrical scrub paths
- Smart Solutions or EcoFlex™ System on all machines
- Green cleaning and high productivity technology
- SC750 with 21 gallon (80 L) solution and recovery tanks
- SC800 with 25 gallon (95 L) solution and recovery tanks
- Safe 'N Dry squeegee system
- Self adjusting skirt on disc machines
- Heavy duty scrubbing performance

Rider Scrubbers

Choose a Rider Scrubber for Increased Productivity

Need to clean large areas fast? Advance has rider scrubbers for your biggest scrubbing jobs. The Advenger® rider scrubber can clean up to 31,500 square feet an hour and features 28 gallon solution and recovery tanks, which extend cleaning time. The Advenger is the first automatic rider-scrubber that gives you complete control of how you clean. The secret is the EcoFlex™ System - a flexible cleaning solution that meets all of your floor cleaning needs, from green to clean. EcoFlex System lets the operator clean with plain water wherever and whenever possible. An ultra-low detergent ratio should be used for normal, routine cleaning. The operator can easily and temporarily increase the cleaning power of the machine with a 60 second burst of power. The dirtiest of floors can be cleaned with full strength detergent, if needed. Your operators will love the Advenger for its ride-on design and low sound level. With an industry leading 63 inch aisle turning radius and the ability to fit through a standard doorway, the Advenger rider scrubber can go anywhere.

The Advance 2800 ST and 3400 ST scrubbers deliver high performance results on a back-to-basics rider-scrubber platform. Manual control of the scrub deck and squeegee replace intricate electronics to keep operation simple without sacrificing performance.

For even bigger cleaning jobs, Advance's Adgressor® rider scrubber is built tough, offering scrub deck options of either 35 or 38 inches wide and cleaning up to 46,200 square feet per hour. Both the Advenger and Adgressor offer interchangeable scrub decks that let you change between disc and cylindrical decks, for maximum cleaning flexibility.

Advenger® & Advenger® with EcoFlex™ System

Rider Automatic Scrubbers

- Green cleaning and high productivity technology standard
- Optional EcoFlex™ System reduces environmental impact and detergent costs
- Tools-free interchangeable scrub decks - 28 inch (71 cm) and 34 inch (86 cm) disc or 28 inch (71cm) cylindrical
- 28 gallon (106 L) solution and recovery tanks with Total Clean® technology
- One-Touch™ scrubbing with calibrated brush pressure and solution flow
- Patented Safe 'N Dry™ rear squeegee system

2800 ST & 3400 ST

Rider Scrubbers

- Available with 28 inch (71 cm) and 34 inch (86 cm) scrub decks
- 28 gallon (106 L) solution and recovery tanks with Total Clean® technology
- Manual control of the scrub deck and rear squeegee eliminates complicated control boards
- Simplified one button control panel with minimal electronics
- Patented Safe 'N Dry™ rear squeegee system

Adgressor® & Adgressor® with EcoFlex™ System

Rider Automatic Scrubbers

- Available in 35 or 38 inch disc scrub paths
- Easy to clean 42 gallon solution and recovery tanks
- 36 Volt battery system
- Rugged design with heavy gauge steel chassis and metal bumper
- Optional EcoFlex™ System reduces environmental impact and detergent costs available on 28 and 32 inch sizes
- Battery watering system standard on EcoFlex System models; Kit available as an option on non EcoFlex System machine

Flexibility for Every Kind of Clean

EcoFlex™ System lets you clean green and still meet the highest expectations for clean floors. With the industry's most flexible floor-scrubber technology, you can develop a sustainable cleaning routine and quickly adjust to whatever the job demands. Be prepared to get more out of your budget, clean with less impact to the environment and maintain clean floors when you do.

Operators can quickly and easily select the right blend of pad pressure, water and detergent to tackle any cleaning challenge. Here are just a few of the flexible cleaning modes:

- **Water Only** – Perfect for removing surface dirt and maintaining the clean look of floors. Water-only mode eliminates the impact of detergents on the environment and reduces cleaning costs.
- **Ultra-low Detergent** – Well suited for routine cleaning where a small amount of green-certified detergent will do the trick. Water and detergent are dispensed separately at the scrub deck, eliminating solution waste.
- **Standard Detergent** – The tough cleaning you expect. At standard detergent, pad pressure and flow rate, you'll have a combination powerful enough to pull stubborn dirt, grease, and oil from the surface.
- **Burst of Power** – For deep, restorative cleaning or unexpected challenges. EcoFlex's burst of power temporarily increases your machine's pad pressure, detergent use and flow rate at the touch of a button.

ecoflex™ system

Flexible

Different areas, floor types and facilities need different cleaning. With the ability to easily select the right blend of pad pressure, water and detergent, you can tackle any cleaning challenge. Effortlessly switch between water-only cleaning or different cleaning intensities at the touch of a button. User-friendly controls let you add extra muscle for heavily soiled areas or on tough-to-clean surfaces such as porous or grouted floors.

Green

Cleaning green with the EcoFlex System is efficient and contributes to building sustainability. The flexibility to develop a cleaning routine that works for your facility and to make on-the-fly adjustments will help you get the most out of all of your resources — from water and detergent to time and equipment.

Clean

Maintaining a clean, healthy indoor environment for you and the people in your building is hassle-free with EcoFlex. Detergent use, pad pressure and flow rate are right at your fingertips. The controls and operation are so simple that operators won't have to hesitate to make adjustments for higher sanitary standards, different surface types or unexpected cleaning challenges.

Wet/Dry Tank Vacuums

Advance Wet/Dry Vacuums for Daily Use

Wet messes, dry dirt, or somewhere in between, Advance has the right wet/dry tank vacuums for almost any daily cleaning challenge.

Known throughout the industry for rugged reliability, versatile Sprite® 16 vacuum excels in wet and dry applications. Used daily in commercial and government buildings, schools, shopping malls, airports and healthcare facilities, operators can count on Sprite for many years of service.

The AWD is available with an optional front air scoop kit. Lightweight and compact, the AWD is ideal for transporting between facilities.

Sprite® Air Scoop™ 16

Wet/Dry Tank Vacuum

- 16 gal tank capacity
- 24 inch front mount squeegee standard, tools are separate
- 1.3 hp 2 stage motor, waterlift 88 inch, 91 CFM, 73 dB A
- Empty by tip-and-pour or front drain hose, 50 foot cord
- Removable tank for easy cleaning

AWD w/ and w/o Air Scoop™

Wet/Dry Tank Vacuums

- Available in 20 and 15 gallon sizes, with compact footprint to take up minimal room in tight spaces
- Front mount squeegee optional in 24 inch or 30 inch sizes
- Adjustable handle folds over machine for easy transport
- Optional H.E.P.A. filtration available

Touchless Cleaning for Increased Productivity

Advance's All-Purpose Cleaning Systems offer touch-less cleaning that is up to three times faster than traditional methods. Advance's All Cleaner™ answers the call for an affordable, touch-less approach to cleaning restrooms and other areas with hard surfaces. You'll improve productivity and see better results – now that's smart cleaning.

When it comes to versatility, the All Cleaner makes the most of its small design. Its open chemical system allows use of any two chemical bottles (including green cleaning approved solutions) and controls the dilution rate for the proper application each time. And whether your bottle is round or rectangle, it will fit in the holding wells on the All Cleaner.

With the All Cleaner™, you'll save precious storage space in your equipment closet because of its compact size.

Reel Cleaner®

All-Purpose Cleaner

- 25 gallon clean water tank
- Onboard storage for standard accessories
- Any shape chemical bottle fits on the machine
- Clean water gauge for emptying and monitoring tank
- Clam-shell design for ease of servicing
- 2 chemical metering system
- Low profile and compact design for ease of transporting

All Cleaner™

All-Purpose Cleaner

- Compact and maneuverable
- 20 gallon solution and 12 gallon recovery tanks
- 2 chemical metering system with universal chemical storage
- 200 psi application flow
- Optional front mount squeegee for easy water pick-up
- Simple storage for recovery and solution hose
- Removable pallette contains all electrical components

Increases productivity by 300% compared to manual wipe-downs.

Adphibian™ Multi-Surface Extractor-Scrubber

Building service contractors and in-house cleaners need equipment solutions that meet the multiple cleaning demands they face today. The Advance Adphibian™ multi-surface extractor/scrubber is the answer. The Adphibian™ cleans both soft and hard floor surfaces. Maximum efficiency and flexibility are gained because cleaning staff are able to go from pre-spraying and extracting on carpeted floors, to scrubbing hard floors with just one machine.

Within 30 seconds, and with no tools required, the Adphibian's new patent-pending technology allows operators to switch between a full-functioning carpet extractor and a full-functioning cylindrical scrubber. And, the specially designed anti-microbial brushes are effective on all surface types.

Dust Magnet™ Dry Dust Mopping System

Advance's Dust Magnet™ is a statically charged dry dusting system that attracts dust like a magnet. Disposable dusting sheets eliminate the mess, laundry and chemical expense you get with other dust mops.

Adphibian™

Multi-Surface Extractor-Scrubber

- Full function extractor and scrubber with AXP™ Onboard Detergent Dispensing System
- Single deck, less than 30 seconds to change from extracting to scrubbing
- CRI SOA Approved Deep Cleaning Extractor in both *LIFT*™ low-moisture and restoration cleaning modes
- *LIFT*™ Technology for low-moisture cleaning
- Dual, anti-microbial counter rotating brushes with debris collection hopper
- Brushes, squeegee and vacuum shoes are removable without tools

Dust Magnet™

Dry Dust Mopping Systems

- Dry dusting system uses disposable dusting sheets
- Super lightweight aluminum system
- Simple static electricity attracts dust and holds it
- 23, 46 and 59 inch wide cleaning path options
- Sheets come in convenient pre-cut boxes of 200, or a continuous roll of 100 sheets

AdSpray™ 1500A

Pressure Washer

- 2 gpm and up to 1,450 psi
- 2 hp electric motor
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

AdSpray™ 1000XPC

Pressure Washer

- Cart mounted electric pressure washer available with a 1.5 hp electric motor
- 2.2 gpm and up to 1,000 psi
- Handles up to 140° F
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

Nilfisk *Genuine OEM Parts*

Keeping your equipment working effectively is essential for superior cleaning. Advance provides manufacturing parts and components through Nilfisk Genuine OEM Parts to help keep your Advance products working at peak performance. OEM parts are designed and built for our machines so they can be counted on to maintain our machines. They are value priced and quality built. By choosing Nilfisk Genuine OEM Parts, you can be certain you're getting the quality part you need for your machine.

Sustainability

Nilfisk-Advance's fundamental attitude to the working environment and pollution is in accordance with the first principle of the United Nations conference declaration on Environment and Development (Rio, 1992):

"People are entitled to a healthy and productive life in harmony with nature."

Our environmental policy states, among other things:

- the employees shall have a safe, healthy, motivating and inspiring working environment
 - the utilization of resources shall be continuously improved
 - our production must be controlled, including development, sourcing and deliveries, in order to minimize environmental impact
-

We actively participate in manufacturing practices that are environmentally friendly, including:

- recycling and reuse of our rotomold plastic, giving it new use as battery tray housing
- recycling of all metals, aluminum, cardboard and batteries
- efficient lighting in our corporate and manufacturing facilities that use less electricity
- equipment design technology that minimizes the amount of water needed to clean

Advance products are manufactured by Nilfisk-Advance Inc., the world's largest designer and manufacturer of high quality commercial and industrial floor maintenance equipment.

Quality

A quality approach to cleaning is the commitment we make to every one of our customers. Along with each machine comes pride, craftsmanship, innovative technology, professional expertise and an international network of parts, maintenance and service support professionals.

Reducing the Cost to Clean

Every aspect of our business revolves around creating cleaning solutions that generate superior cleaning results, increase productivity and reduce the cost of ownership. The result is superior cleaning products that drive down the cost of cleaning. The pride we take in production and service will become your pride of ownership when you buy Advance equipment.

At Advance, we are defining cleaning innovation.
