

Designing an Artists Web Site Using HTML

Course Description

This 6-week course is designed for artists with people with a good understanding of computers, but with little or no working knowledge of creating web files using HTML. If you're ready to take on building your own web site and learning HTML from scratch using an editing tool, this is the class for you. Students will be introduced to general web-related topics and basic elements of HTML documents. Students will use a plain text editor to create HTML code and use an FTP program to upload the pages to the Internet.

Course Cost

\$240 for 6 weeks (3-hour sessions)

NOTE: Web site domain and hosting are not included in this amount.

Suggested Reference Text (optional) – *HTML books are available at your library*

HTML, XHTML, and CSS, Sixth Edition: Visual QuickStart Guide, Elizabeth Castro

Prerequisites / Required Hardware and Software

- good knowledge of English although bilingual material will be available.
- attendees require a portable computer with a current web browser (Firefox vers. 3+ / Internet Explorer vers. 7+, Chrome), FTP client installed, wireless network card, USB key.
