### Description

*Item Specifics - Home Speakers*

Speaker Type: **Floor Standing**  
 Brand: **Polk**  
 Cabinet Color: **Wood - Dark**

Wireless: --  
 Condition: **Used**

These may not be exactly mint but they are about as close as you'll find without the original boxes and paperwork.

These are one of the most popular speaker models that Polk ever made. And for good reason. They are very handsome, very well engineered, and they have a great sound with super value. A pair of these cost about \$500 20 years ago. All the drivers have butyl rubber surrounds and there is an overload fuse in the terminal cup to protect the large and expensive dome tweeter.

10" Passive Radiator system. For those of you who don't know what a passive radiator is, it's simply a woofer that's not powered. It creates vibration from the air pressure generated by the 6 1/2" Mid Woofer and the Tweeter. And since it's area is larger - 10" vs. 6 1/2", it will generate a deeper tone from the larger sound waves. The round item in the middle where the dust cap usually is, is simply a weight to balance the cone and stop unwanted waffle or sideways movement. Much like a counterweight or ballast.

- 10" Passive Radiator
- 6 1/2" large magnet woofer
- 1" Dome Tweeter
- Dimensions: 24"T x 14"W x 10"D
- Rosewood vinyl covered cabinets
- Screw type wire connectors that will accept Monster Cable and digital banana plugs.

Shipping will be \$38 for the pair in the lower 48 US.

Thanks for bidding!
