* Housing Requires TTL Conversion Modification.

To have your product serviced, please contact your Sea&Sea authorized dealer or the Sea&Sea Factory Service Facility. Sea&Sea and our authorized repair facility take great pride in offering some of the most highly trained underwater photography technicians and genuine Sea&Sea replacement parts to repair your equipment. Before sending in your product, please take note of your product's model and serial number and keep it for your reference.

What to Include when shipping your product to the Repair Facility?

You should pack your product securely and safely and include the following information:

- 1. Return Address
- 2. Telephone Number and email address
- 3. Written description of the Problem

4. Copy of your Proof of Purchase from an authorized dealer (if still under the terms of the original warranty).

Please note that Sea&Sea warranty only covers factory defects. The warranties do not cover misuse or abuse, including tampering by unauthorized repair facilities or other persons, flooding resulting from customer misuse or improper care and maintenance.

We highly recommend the following procedures for shipping and handling:

- 1. Secure the product in the original box and packaging with all original items if available.
- 2. Ship using a traceable carrier such as UPS, Federal Express, and United States Postal Service
- 3. We also recommend insuring your product via the shipping carrier.
- 4. Obtain a tracking number from the carrier for your reference.

Please note Sea&Sea is not responsible for products lost, stolen or mis-delivered by a carrier.

Where to Ship Your Product for Servicing?

Send your product to the address below for product repairs and warranty claims. After our service center receives your product and all required information you will be contacted with status of your repair.

Sea&Sea Service-SAC 22740 Portola Drive Salinas, CA. 93908 831-484-6233 or seaandsearepairs@aol.com
